Take Ten on Tuesdays at 12:10 pm- weekly meditation

Log on with cameras and microphones off! That way if you need to enter the call late or end early you can. Just sit wherever you are, earphones in, masks off if you want (even if you are in school in your designated lunch room). Research has shown that as little as 5-10 mins per day of meditation can effectively rewire the brain and help cultivate awareness, tolerance and resilience. Help yourself navigate these contentious, uncertain and exhausting times by taking ten minutes on Tuesdays to restore some mental energy and clarity. As simple as meditation is, it is extremely powerful and if there was ever a time to start a meditation practice it is now!

Thank you,
Ms. Spunzo
